Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?
2. The majority of the patients who came in to the PED were from which age group? Was this what you expected?
3. Was your overall experience different than what you expected? Please give examples.
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)?
5. What types of procedures did you observe or assist with?
6. What community acquired diseases are trending currently?
7. What community mental health trends are being seen in the pediatric population?
8. What patient population is the most vulnerable?
9. What is the process for debriefing after a traumatic event?
10. If someone donated \$100 million to the PED, what would you change?
11. What is the process for triaging patients in the PED?
12. What role does the Child Life Specialist play in the PED?

1.) A 15 y/o F w/ suicidal ideations. A 4 y/o M w/ a R arm fx. and a 4 week old M w/ pyloric stenosis

2.) school aged children (4-7)

3.) It wasn't as busy as I imagined but it was still a fun learning experience

6.) rotavirus. enterovirus

9.) The process I witnessed was the Dr. communicate w/ the nurses about what orders to order and what to expect to happen w/ this patient.
