

Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?
Ruptured appendix, Appendicitis, dehydration, altered mental status
2. The majority of the patients who came in to the PED were from which age group? Was this what you expected? 9-16 yrs old, No I expected more infants.
3. Was your overall experience different than what you expected? Please give examples.
Yes, I thought it was going to be a faster pace and busier, thought I would see more interesting cases.
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)?
5. What types of procedures did you observe or assist with?
6. What community acquired diseases are trending currently?
Stomach bugs, RSV and STD's
7. What community mental health trends are being seen in the pediatric population?
8. What patient population is the most vulnerable?
9. What is the process for debriefing after a traumatic event?
10. If someone donated \$100 million to the PED, what would you change?
11. What is the process for triaging patients in the PED?
Have the Patient or Parent fill out form, take them to triage room, assess the Patient, get vitals, check them into a room
12. What role does the Child Life Specialist play in the PED?
