Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?
a lot of sore throats / rashes
2. The majority of the patients who came in to the PED were from which age group? Was this what you expected? Between the ages 4-8, this is what I expected because we are still some what in the season of being sick.
3. Was your overall experience different than what you expected? Please give examples.
No. I've worked in ED in adults & it is the same, but w/ different people.
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)? We give each patient as much help as we can then the doctor will go in to help. An example is a child who came in w/ dehydration symptoms & we gave a form of fluid which is Popsicles.
5. What types of procedures did you observe or assist with?
6. What community acquired diseases are trending currently?
7. What community mental health trends are being seen in the pediatric population?
G / anxiety & depression
8. What patient population is the most vulnerable?
9. What is the process for debriefing after a traumatic event?
10. If someone donated \$100 million to the PED, what would you change?
11. What is the process for triaging patients in the PED?
Eol 5-1
12. What role does the Child Life Specialist play in the PED?

1 8 yrs

2 4 yrs

3 13 yrs

4 7 yrs

5 4 yrs

6 12 yrs

7 8 yrs

8 9 yrs
