

***Resource Scavenger Hunt** – Create a resource list for your hometown! See what you can find in each area and add to this list if you find some other resources! These all need to be out of hospital resources. Try to find 3 or more in each area.

1. Physical Therapy – Do they provide in-home physical therapy, or do you have to drive somewhere to attend?
2. Medical Supplies – Who provides medical supplies in your town such as walkers/CPAP machines/wound care supplies? Do they all provide the same supplies/equipment?
3. Dialysis – Where can patients go for their regular dialysis appointments?
4. Home Health – What home health companies are local to your patient? What services do they provide? How far will they travel to see a patient?
5. Transportation – Are there transportation companies that will assist with getting to and from appointment?
6. Meals – Are there any meal resources in your hometown that will either provide hot meals, box meals or groceries to your patient who can't go to the grocery store?
7. Hospice/Palliative Care – What companies provide these services? How far will they travel to see a patient?
8. Pharmacies – How many pharmacies does your town have?
