

# OB Group Presentation Instructions

## Instructional Module 6

### **Group Size**

Each group will consist of **two** students unless there are an uneven number of students, in which case there will be one group of three students.

### **Topic**

Each group will choose a topic from the list provided and prepare a presentation reflecting the research on the chosen topic. Once the topic is chosen a literature search should be performed to gather information for the presentation. Two scholarly journal article resources are **required**. See the LMS instructions on what constitutes a scholarly JOURNAL article.

### **Presentation**

The group will create a 5-10 minute professional power point presentation covering the outlined objectives. Each group member will be required to present a portion of the presentation to their peers and instructors. Please check the calendar for the date and classroom assignment of the presentations. **Professional dress is required for the presentation.**

### Group Presentation Objectives

1. **Clinical Judgement:** Describe the disease pathology or topic background.
2. **Patient Center Care:** Describe the role of the nurse related to the disease pathology and/or topic.
3. **Safety/Quality:** Develop a plan of care for patient base on nursing diagnosis.
4. **Professionalism:**
  - Team members will exhibit professional dress.
  - The PowerPoint presentation should demonstrate
    - o Creativity and organization
    - o Free of spelling and grammatical errors
    - o Easy to read. Font size  $\geq 20$ . Avoid extremely light, dark, or bright colored backgrounds and/or letters
5. **Communication/Collaboration:**
  - Discuss community resource available
  - Teamwork evaluation will include
    - o Team members preparation for the presentation
    - o Audience attention and participation in questions and feedback to peers
    - o Team member evaluation of their peers. *The evaluation tool is to be completed and uploaded into each member's **individual Dropbox prior to the presentation due date***

6. **References: Requirements for Resources**
  - Minimum of 2 scholarly, evidenced-based **nursing or medical** journal articles
    - o Other resources, such as websites and textbooks may be used **in addition** to the articles. (Make sure to included on the references page)
  - Reference page should be created as a separate **word document**
    - o References should be cited in the correct APA (**7<sup>th</sup> edition**) format (see LMS lesson on APA)
    - o Make sure to list all participants names in the heading of the word document
7. Upload the ***FINAL PowerPoint version and reference page*** into the appropriate Group LMS Presentation Dropbox the **prior** to the presentation due date and time.
8. See grading rubric for specific criteria required and grading details.
