

Nursing is a career that I can see myself loving and there are a multitude of reasons why I chose nursing. One of the main reasons why I chose nursing is to serve humanity and love the way Jesus has called us to. Nursing also has numerous opportunities for growth and advancement. As a CNA, I was amazed by the knowledge, skill, and experience of the nurses; and their passion and desire for nursing furthered my choice to be a Nurse. Overall, I think nursing will be a rewarding career, and I am excited to begin learning about what it means to be a Nurse at CSON.
