Unauthorized use or access may be a violation of federal and state laws and regulations. Unauthorized users may be subject to criminal and civil penalties. Use of this system serves as your acknowledgment of and agreement to abide by applicable Providence policies.

Sometimes there can be issues with the Citrix application installed on some computers. The Help Desk would need to correct that issue but if you are unable to access the Epic by using the desktop icon or the Citrix icon you can log in to the web version by using Edge/Chrome & navigating to <https://psjhapps.providence.org>

You will log in with your UPN & password. (Your UPN was provided to you when you claimed your account & it ends with @providence.org)

After a successful log in you will be in your Citrix Workspace as shown in the 5th slide & follow directions from there.
