

Advisory Group Information Sheet

Name: Star Harlin

Name I prefer to go by: Star

Tell me about your family/support system: I have been married to my best friend since May of 2022. He is my number one supporter in all things. I have an aunt and uncle who are both nurses that support me and encourage me. I have several close friends that support me along the way as well! I have two amazing siblings that have been raising the last two years who have encouraged me!

Hospital Experience N Job: Covenant childrens ED FT / PT / OC

What do you do for self-care? I like to read or just be around my husband (he works a lot)

What are your study habits? The white board is my best friend! I like to read my book and then use the white board to use the teach back method so I can see what I have learned and what I need to go over more

What are your goals for this module? The biggest one is just to pass but I really hope to learn more about the OB and psych world. I know first-hand from working at CCH ED that there is not enough mental health professionals in our area!

What do I need to know to help you be successful in this module? All the encouragement. I tend to have really bad test anxiety and that really got to me in earlier modules so I am trying to tackle that every chance I get!

What past experiences may trigger you, related to our content, that you would like me to be aware of? I have none 😊

Thank you!! I am looking forward to this module 😊
