## IM 7 Clinical Judgment Patient Packet

Rev 10/2024 DS

**RECOGNIZING CUES**  
Identify relevant and important information from different sources.

Diagnosis/Current Problem and when it started:   Medical History (Allergies):   Patient Story: What happened and why is the patient here?     	Code Status: Full DNR   O2 Therapy (Type and current FiO2)   IV Site(s) (Dates placed and dressing changed)   Tubes (Drains, urinary or bowel catheters)   Therapies: RT/OT/PT(What are the recommendations?)	Weight  Height
---	---	----------------------

Explain the pathophysiology of your patient's current problem in your own words. Describe the concept associated with the pathophysiology.

Pathophysiology of current problem in your own words	What do you expect to see

Abnormal Applicable Lab Tests	Current Lab	How does this affect your patient?

**ANALYZING CUES & GENERATING SOLUTIONS**  
Organize and link the recognized cues to the patient's clinical presentation.

What are the major things going on with your patient?	
What do you want to do for this patient?	
Why do you want to do these things?	

## SBAR

### SITUATION

Age: \_\_\_\_\_ Sex: M F  
Date admitted:  
Admitted from (home, nursing home, assisted living):  
Code status:  
Physician (attending):

### BACKGROUND

Admitting diagnosis/Primary problem:  
  
Date of surgery (if applicable):

### ASSESSMENT

Code status:  
  
Abnormal V/S:  
  
IV Site (lock/fluids/drips/when to change IV site):  
  
Procedures done in the last 24 hours:  
  
Abnormal assessments:  
  
Current pain score:            What has been done to manage this pain:  
  
Safety needs/fall risk/skin risk:

### RECOMMENDATION

Needed changes in the plan of care? (diet, activity, medications, consults)  
  
What are you concerned about?  
  
Discharge plans:  
  
Pending labs/x-rays:  
  
What does the next shift need to be aware of?

## POST CLINICAL REFLECTION

This exercise strengthens your clinical judgment skills.  
Reflect on your clinical day and the decisions you made caring for this patient by answering the questions below.

Reflection Questions	Student Nurse Reflection
What feelings did you experience in clinical today? Why?	
What did you already know and do well as you provided patient care today?	
What areas do you need to develop or improve?	
What did you learn today?	
How will you apply what was learned to improve your patient care?
