Date: 11/6/24

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Covenant Medical Group Women's Health

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? Pap smears, bimanual exams, breast exams, Nexplanon removal & insertion, Endometrial biopsy, Doppler for FHR, Birth control education/referral, IUD removal.

2. What was the best/most interesting part of the experience?
Observing the Endometrial biopsy, I also handed her what she ~~needed~~ needed while she was doing the biopsy.

3. Is a community nursing position something that you would consider working in? Why or why not?
Yes, I have always thought about going into a clinic ~~if~~ hospital doesn't work for me.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?
Yes, they do tons of teaching, plenty of resources for patients.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, education on pap smear, endometrial biopsy, Nexplanon removal care & home tx, importance of taking Progesteron w Estrogen Post menopause w uterus, general vitamin teaching, the menopause & menopause symptoms, importance of staying up to date w appointments, Birth control pills
The teaching was great and it was more than adequate. The patients understood teaching & all questions were answered.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Plan fasting around cycle to test for ovulation. Schedule labs so dad's sperm can be tested.

Clinical Judgment:

During the Endometrial biopsy having to use the forceps to keep the cervix from pushing out the dilator, getting extra samples

Patient Centered Care: to prevent her from coming back for another.

Professionalism:

Birth control education, different types & what could be causing her irregular periods

Communication & Collaboration:

Teaching on Vitamins & new medications before leaving clinic. Working w the NP nurse to see her patient's since she had to come in late.
