

Disciplinary Action

Presented by Alina Elizarraraz

Kori Michelle Clemens

License: Registered Nurse (RN)

License Number: 715431

Graduated: Covenant School of Nursing

**Place of Employment: Encompass Health,
Sweetwater, Texas**

June 2, 2019

- Medications not secured correctly
- Medications were not administered, and were stolen by the nurse
- Fentanyl was stolen and nurse told patients wife she stole it
- Usage of amphetamines and opiates

Preventatives

01

Disposal of all medications could be observed more closely

02

Being more professional with the conversations between the nurse and the patients

03

Taking responsibility

Universal Competencies

Safety & Security (emotional):

- Trust and respect with the patient

Safety & Security (physical):

- Use of drugs on the job

Documentation:

- Should only be documented if done

Human Caring:

- Patient was never involved in their choice of medications

Professional Role:

- Poor communication with other staff and patients family

My Action:

- Talk to my Clemens one on one
- Talk to charge nurse
- if patient is in immediate danger I would make sure they are safe first
