1..What did you like best about your preceptor?

Kristian created a very comfortable learning environment. she allowed me to ask questions. she challenged me and pushed me towards gaining more confidence as a nurse!

2. Do you have any suggestions for your preceptor to consider when working with future students?

I was Kristian's 2nd student - and I think she did great. Furthermore, I think she'll continue to find new ways of teaching students based off their individual needs.
