

Student Name Halee Alsabrook

Date: 12-4-24

**Instructional Module 6: Obstetrics Community Clinical Experience**

Community Site: Lamothe Clinic

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?   
↳ I was able to observe a Pap Smear, Vaginal Exam + Breast Exam + GBS Swab

2. What was the best/most interesting part of the experience?

↳ What I enjoyed most was being able to follow + listen to Dr. Lamothe patient teachings and fun drawings he would do for clarification.

3. Is a community nursing position something that you would consider working in? Why or why not?

↳ I think I could see myself working in a community clinic down the line but not right after graduation, because I thought it was a bit too slow for my liking

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

↳ Yes, both doctors + all of the nurses were amazing + truly cared for their patients.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

↳ Yes + Yes.

I was able to witness Placenta Previa teaching and teaching about hormonal birth control.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>
