

**IM6 Student Learning Outcomes
OB SIMULATION**

Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

GOAL for STUDENT LEARNING OUTCOME

- **All IM6 students, during their 3-week OB clinical rotation, will be able to identify at least one example** of how they meet each of the **STUDENT LEARNING OUTCOME** listed above.
- **Students** are expected to be **prepared, engaged** and **attentive** during each **clinical experience**.
- **Each student** will discuss in their **Post Clinical OB Sim Reflection** at least **2-3 Student Learning Outcomes** met during OB Simulation.
- **Each student** should be able to identify **AT LEAST ONE** accomplishment from **ALL FIVE STUDENT LEARNING OUTCOMES** by the end of their **3-week OB clinical rotation**.
- **ALL paperwork** is to be **completed** and **submitted** by **1600 on Thursday of clinical experience**.

OB Simulation Clinical Expectations:

Patient Centered Care

1. Assess the patient support system, culture, and/or birthing preferences
2. Provide reassurance regarding concerns related to pregnancy/neonatal complication
3. Utilize therapeutic communication techniques

Communication and Collaboration

4. Collaborate with other healthcare members to provide quality care
5. Delegate tasks appropriately
6. Demonstrate prompt notification of status change to provider utilizing SBAR
7. Provide ongoing patient and family education

Clinical Judgement

8. Recognize, evaluate, prioritize, and implement appropriate interventions for:
 - a. Labor progress
 - b. Pain
 - c. Fetal heart rate patterns
 - d. Complication of pregnancy
 - e. Newborn instability

Safety and Quality

9. Maintain standard precautions
10. Utilize the 7 rights of medication administration
11. Implement intrauterine resuscitation
12. Evaluate effectiveness of patient/family communication and education

Professionalism

13. Demonstrate effective communication and professionalism while providing patient care

PATIENT CENTERED CARE: I was able to properly inform the family of the reason Vitamin K injection and a heelstick glucose reading were necessary for the care of the newborn.
