

2025 HESI and Other Assignments for Nursing 1300

<p>Please read the following instructions carefully:</p> <ul style="list-style-type: none"> It is HIGHLY recommended that you complete the HESI assignments the week they are listed in this document. Note the suggested and in some cases the required completion date/time for each assignment. All work must be completed by 0800 4/17. To locate the HESI assignments, log in to your Evolve. Find the folder you want to work in, like “Clinical Skills”. Click on that folder. <p>Skills, Drug Calc, or Pharmacology Assignments: Click on “Course Calendar” in the appropriate folder. <u>Go to the last month of this course, which is April</u>. You will see the list of skills or drug calc assignments. Click on the assignment you want. You can retake a quiz but note that the quiz grade for each assignment is <u>averaged</u>. i.e., Score 70% on first attempt & 90% on second attempt– average is 80%. If you score 20% on the first attempt, you will have to retake the quiz numerous times to bring up the average to the required 80%.</p> <p>Case Studies: Click on the Case Study folder. Click on Assignments. Choose and then click on an assignment and it will open. You must score 80%. You can retake the Case Study quiz if you do not score 80% on the first attempt. The best score will be recorded.</p>	
5 Pharm Quizzes	<p>Five (5) Pharm quizzes (50 questions each) are assigned. One in week 2, 4, 7, 9, and 11. The 5 Pharm quiz grades will be averaged and result in 5% of your overall grade. The quizzes open and close on specific dates so they MUST be completed during the time frame noted on this sheet. The pharm quizzes are open book. They OPEN Tuesday at 5 pm and CLOSE Thursday at Midnight of the assigned week. Pharm Quizzes are located in the Adaptive quiz folder. Click on Elsevier Adaptive Quizzing left side of screen, then click on Assignments left top corner.</p>
Adaptive Quizzes: Located in Evolve – Adaptive Quizzing Due 0800 4/17	<p>Four (4) Adaptive Quizzes open 0800 1/14 and close at 0800 4/17. You must “level up” to an intermediate level on each Adaptive Quiz. The number of questions will vary from student to student. You need to use the confidence indicator that best matches your level of confidence in answers to level up. i.e. “confident” or “not sure.” This will keep the number of questions you are asked to a more appropriate number for you. DO NOT WAIT until the last minute to do these or you will not finish them by the module deadline. Some students may be required to take 100 plus questions to complete the quiz. The quizzes are in the Adaptive Quiz folder.</p> <ul style="list-style-type: none"> HESI Adaptive Quizzing-Renal, Urinary, and Reproductive Systems HESI Adaptive Quizzing-Respiratory System HESI Adaptive Quizzing-Cardiovascular, Hematologic, and Lymphatic Systems HESI Adaptive Quizzing-Endocrine
HESI Skills & Case Studies	<p>Review the extended sheet and watch any videos included with each skill then take the test. Take test for each Case Study. You must Score 80% on all quizzes.</p>
