Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Dr. Lamotte

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I watched a VE, doppler tones, and give vaccines.

2. What was the best/most interesting part of the experience?

I enjoyed being able to watch/see this side of the patient experience, especially pre-hospital.

3. Is a community nursing position something that you would consider working in? Why or why not?

I would consider it in the future. I think it is beneficial to see everything from the hospital side first.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes I do, they are all very kind and willing to help with whatever concerns the pt may have.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

I watched education for a procedure Dr. Lamotte performed a couple weeks ago. The vaginal exam, and vaccines. I feel that the Dr & nurses were extremely knowledgeable and able to broadly explain and answer clarifying questions as needed.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

| IM6 Student Learning Outcomes | | | | |
|---|---|---|---|--|
| Safety & Quality | Clinical Judgment | Patient Centered Care | Professionalism | Communication & Collaboration |
| Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles. | Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders. | Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders. | Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders. | Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders. |

Safety & Quality:

Clinical Judgment: Dr Lamoth planned to do a VE on a post-op pt. but after speaking w/ the patient & reviewing new information, he decided it was not needed.

Patient Centered Care:

Professionalism:

Communication & Collaboration:
