

<b>Safety &amp; Quality</b>	<b>Clinical Judgment</b>	<b>Patient Centered Care</b>	<b>Professionalism</b>	<b>Communication &amp; Collaboration</b>
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

**Safety & Quality:**

I

**Clinical Judgment:**

**Patient Centered Care:**

**Professionalism:** We remained professional by providing support to a patient who had not gotten the care that she needed after her CVA accident.

**Communication & Collaboration:** During the placement of an IUD, us as staffing were informing the patient of what was happening such as the cervix was pushing back while the placement of the IUD was being placed.
