

Aspire, AA and Oceans Reflection (300 word minimum)

<p>Safety & Quality Describe anything you accomplished to maintain a safe, quality environment</p>	<p>During AA, I think we were careful just around the group of people we were around.</p>
<p>Clinical Judgment As you listened during group, how were you able to integrate classroom knowledge with what the patient/therapist were discussing:</p> <ul style="list-style-type: none"> • What can you apply to this situation from your previous knowledge? • Can you apply these learnings to other events? How can you use this to further improve your practice in the future? • What have you learned from clinical? 	<p>I had heard of AA meetings and how they ran from movies. It was similar of what the movies presented. I feel like a lot of it hit on addiction and they talked about what they used just like Mrs. Harrison's lecture. They really talked about how each drug would do to them and I think that it shows us nurses to what to watch out for, of course everyone is different..</p>
<p>Patient Centered Care Identify one client in the group, what concerns, recommendations/interventions would you suggest?</p>	<p>One client that stuck out to me has this girl who came in a little late. She did not share much but her husband had <u>came</u> with her and he talked about how she was a meth addict but she had recovered and that is how they met. When she came <u>in</u> I looked at her and figured that she was there to support her husband. She looked very put together and even had brought a child. It amazes me to see that your most put together people, the way you look at their outer appearance isn't what they <u>actually have gone</u> through.</p>
<p>Professionalism How did you maintain professionalism? You can review your clinical evaluation for ideas (What has this taught you about professional practice? About yourself?)</p>	<p>I think I made professional by just listening. However, in our group it was speaking so Dacia and I told them what were there for. They seemed appreciative that we were there to listen and <u>actually learn</u> and see what happens outside in the community.</p>
<p>Communication & Collaboration Describe how you utilized therapeutic communication/collaboration</p>	<p>I think by listening and understanding more of stories. It is really inspiring to hear different <u>stories</u>, each story impacts you in a different way.</p>
<p>Feelings</p> <ul style="list-style-type: none"> • How were you feeling at the beginning? • What were you thinking at the time? • How did the event make you feel? • What did the words or actions of others make you think? 	<p>I think going into it I was dreading just because I know that we would look different compared to the others. The one we went to said non- smoking but when we entered it filled of smoke in the building. As well as we were</p>

<ul style="list-style-type: none"> • How did this make you feel? • How did you feel about the outcome? • What is the most important emotion or feeling you had? 	<p>expecting for us not to talk but we had to talk during the time, I feel like that had made us uncomfortable.</p>
<p>Evaluation What stood out the most about Aspire, AA, or Oceans</p>	<p>I think what stood out during AA was everyone story was different. That it was inspiring to <u>each every</u> person, even if you did not go through anything it was inspiring to hear.</p>
