Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Lubbock Health department STD

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I was able to see several blood draws, fingersticks and 2 vaginal exams. I did several of the blood draws. Saw cryo on some wart.

2. What was the best/most interesting part of the experience?

Getting to interact with pt's and staff. And going into lab part of building to see how it works

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes, I think its very hands on and its an area where patient might need a lot of education and compassion in this area.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes I think it an amazing resource in the community and Lubbock is lucky to have the staff here helping to get people healthy and protect others.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes Patient teaching about STD's and when to have sex. Also about safe sex. Yes I think they did a great job on educating the population.

6. Provide examples of care describing one or more of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment:

Patient Centered Care: During my time at the health department, we provided very discreet care and never made anyone feel bad or less than for being there. We asked about partners or anyone else involved.

Professionalism:

Communication & Collaboration:
