

6. Provide examples of care describing one or more of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment: Had pt come in who was a boy arrested with positive HIV test. Pt not positive and staying with BF. so using our clinical judgment we educated pt on starting the prep med to prevent contracting HIV and using condoms to promote safe sex as another form of protection.

Patient Centered Care: During my time at the health department we provided very discreet care and never made anyone feel bad or less than for being there. we asked about partners or anyone else involved.

Professionalism:

Communication & Collaboration:
