I want to be in Nursing as I want to be a difference in the Nursing field and provide more than just help to those in need. I want my patients to feel welcomed and heard every time they see me. I do not want my patients to feel as if they're a bother or their questions weren't answered. I want to provide the best care for them and have them feeling better about their health concerns. I want to be the best Nurse I can possibly be for anyone around me that is in need.
