Why Nursing

From my perspective, nursing is a beautiful way to share God's love for His people. Throughout my life, I have experienced many blessings, and I have a strong desire to give back the love, care, and gifts that have been given to me. I am also a mother of two children. I believe that becoming a nurse may empower them to serve their community and be a positive change in the world. I also hope that they will learn to have compassion and care for all people and love the way Jesus loves us. I have always enjoyed caring for others and I have much faith that my kindness and patience will be put to good use in a nursing career. I am absolutely thrilled to begin this journey into CSON and learn the skill and technique it takes to care for people on their road to healing.
