

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment:

Patient Centered Care:

Professionalism: I kept it professional in the clinical setting by asking the women every time if they were comfortable with me in the room during any exam or private parts.

Communication & Collaboration: During my physical exam of bubblehead, I communicated my actions very well to make sure the pt understood what I was doing.
