Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Covenant Children's - Women's Health

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? pap smears - annual checkups

2. What was the best/most interesting part of the experience?

- I was able to feel what the Dr. believes to be cervical cancer in a pt. Dr. referred out of office to have a bx done.

3. Is a community nursing position something that you would consider working in? Why or why not?

I think maybe later down the road but at first, no. It doesn't have a lot of procedures or uses a lot of skills you would vs in a hospital setting so just want to experience that.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, the NP served women & I felt made pts feel comfortable in situations that can sometimes be uncomfortable
