

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

- Yes, when the provider noticed max of pts that had cancer, she was informative on giving education on when to come back in for a pap smear & also referred out for a vaginal ultrasound for preventative measures.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

### IM6 Student Learning Outcomes

<b>Safety &amp; Quality</b>	<b>Clinical Judgment</b>	<b>Patient Centered Care</b>	<b>Professionalism</b>	<b>Communication &amp; Collaboration</b>
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

**Safety & Quality:**

**Clinical Judgment:**

**Patient Centered Care:**

provider was able to provide pt centered care for individuals by performing pap smear & any additional procedures that needed to be done. Provider also when the office didn't do pessaries for a pt who came in, she called other offices to see which Drs. provided the pessaries.

**Professionalism:**
