

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

**Safety & Quality:**

**Clinical Judgment:** I used clinical judgement by ~~being~~ understanding the complications of my sim patient and taking the necessary steps to aid in babies safety

**Patient Centered Care:** helped distract patients other children while also bringing water to patient when needed.

**Professionalism:** I maintned professionalism by maintaining a calm demeanor during sim lab en toward born patient and family

**Communication & Collaboration:**

Ask before watching any procedure to make sure patient and family was comfortable with me in the room,
