Pathophysiology of current problem in your own words	What do you expect to see

POST CLINICAL REFLECTION

This exercise strengthens your clinical judgment skills.
Reflect on your clinical day and the decisions you made caring for this patient by answering the questions below.

Reflection Questions

Student Nurse Reflection

What feelings did you experience in clinical today? Why?

What did you already know and do well as you provided patient care today?

What areas do you need to develop or improve?

What did you learn today?

How will you apply what was learned to improve your patient care?
