Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Dr. Blann

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? I observed and learned how to do fetal heart tones.

2. What was the best/most interesting part of the experience?

The best part of this clinical was getting to learn from Naomi

3. Is a community nursing position something that you would consider working in? Why or why not?

No, this clinical is not something I would personally be interested in. It was not my cup of tea nursing wise and I feel it would not be a good fit.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

They did meet the needs of the community.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes I did. I experienced Naomi teaching on birth control after pregnancy and the importance on it. It was great education!

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality: I recognized preeclampsia (severe) and verbalized the dangers to Naomi

Clinical Judgment:

Patient Centered Care:

Professionalism: I advocated for the preeclamptic patient

Communication & Collaboration:
