

Student Name Alexis Glass

Date: 4/29/25

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Westfall

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

Observed - RN obtaining health history + entering into EHR, RN questioning pts about relevant information to relay to APRN, + collecting labs

Participated - cervical pap smears

2. What was the best/most interesting part of the experience?

Actually witnessing pap smears + seeing the cervix

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes, women's health is a growing health concern + being able to work in that type of environment helping women heal is empowering.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, the APRN was very passionate about her work. I was the 1st time I was able to witness a long, purposeful interaction with a Dr which made the pts feel seen + heard.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, I witnessed teachings about nutrition + incorporating certain herbal supplements to help with some s/s. I believe the teachings were accurate + she had evidence to back it up.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality: While observing pap smears, I learned the importance of sterile techniques, proper tool handling + pt education to ensure safety + comfort. I recognized how following EBP minimizes risk of infection, etc.

Clinical Judgment: I learned how to collect VS accurately and saw how this data informed clinical decisions like further assessments + lab orders. This helped me up's how to support clinical judgement through accurate + timely documentation.

Patient Centered Care:

Professionalism:

Communication & Collaboration:

OB Community Verification Sheet

Instructional Module: IM 6
