

GI Lab Reflection Questions

1. What types of patients (diagnoses/ procedures) did you see in the GI lab?
2. What prep is required for patients based on scheduled procedure?
3. How did growth and development come into play when caring for patients?
4. What is the process for obtaining consents for the procedure?
5. What are some common post-procedure instructions given to the patient/caregivers?
6. Give examples of non-pharmacological comfort nursing interventions you saw.
7. What complications (red flags) from sedation did you watch for and how did you monitor?
8. What is the flow of the patient throughout the department? Give examples of how staff worked as a team?
9. How does the NPO status change based on age or if infant takes breast milk vs formula?
10. What role does the Child Life Specialist play in the GI lab? If not observed, how could they be part of your interdisciplinary team?
