

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality:

Clinical Judgment: During my simulation I monitored my patient’s glucose levels and vitals after each intervention and noticed that each intervention was unsuccessful. I then called the doctor and was advised to transfer the patient to NICU

Patient Centered Care:

Professionalism:

Communication & Collaboration: During my simulation I discussed possibilities with the patient of talking to a case manager about her friend who took her baby. Although she was distraught, I think she was able to come to terms with everything that happened
