

6. Provide examples of care describing one or more of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality: Once my HIV patient started seizing, he started bleeding heavily. We made sure to wipe down the area, & dispose of everything in biohazard waste.

Clinical Judgment:

Patient Centered Care: A patient of mine at the STD clinic was upset about the possibility of having an STI from her husband. Both the M.A. & I listened to her concerns.

Professionalism: CPS: Parents were active drug users

Communication & Collaboration: Education w/ fundus, meds, and NICU team
