| Safety & Quality                                                                                                                                                  | Clinical Judgment                                                                                                                                               | Patient Centered Care                                                                                                         | Professionalism                                                                                                                                                                         | Communication & Collaboration                                                                                                                                                      |
| Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles. | Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders. | Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders. | Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders. | Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders. |

**Safety & Quality:**

**Clinical Judgment:**

**Patient Centered Care:**

**Professionalism:**

**Communication & Collaboration:** We had great communication when communicating to the pt about different contraceptive devices. We went through each one & explained each one thoroughly to the pt.
