# Why Nursing

Nursing has always had a big part of my life. Growing up I had some health problems at the age of 12; I ended up being in the hospital about 3 times for a few days each but also ended up having to do 6 months to yearly check ups there. I got to see how good nurses have positive impacts on the patients and I realized I wanted to help others and be that impact also. Recently God has put on my heart to become a mission nurse and to visit other countries, even if I don't succeed in that, serving Him by serving others will still glorify Him. That is why I want to become a nurse, thank you for this opportunity.
