I want to become a nurse because throughout my entire life I dreamt of becoming someone who wanted to help others in the medical field. I felt like it has always been my calling. I love helping others no matter how big or small it was, it just gave my heart a pleasant feeling. I also have a one year old son. I didn't ever imagine myself becoming a mother at a young age, but my purpose is to also give him everything he needs in life. He has one hundred percent changed my life, and I owe that to him. I want to also just continue pushing myself to the fullest and achieve goals I have for myself. Becoming the greatest nurse there is, is something I strive for and will achieve in the near future.
