## Why Nursing?

I decided to pick nursing because I love to help people as well as uplift people. I was in out of the hospital at an early age and was surrounded by great nurses that made me feel comfortable. I would like to reciprocate that later down the line and make everyone feel safe as well as comfortable in the hospital.  Nursing is also one of those jobs where there is great job security. This would allow for me to always be able to provide for my future family and me.
