Patient Report—cont'd

| | | |
|-----------------------|----------------------------|---|
| | Labs and diagnostics: | All labs within normal ranges |
| Assessment | Nurse's assessment: | Marcie has been pleasant and cooperative. She reports feeling extremely anxious. Has been noted to be pacing around unit. Describes obsessive thoughts about feeling incompetent and being unable to meet expectations in relation to new promotion at work. Reports compulsive behaviours at home consisting of ritualistic folding of laundry. She feels that the level of her anxiety has impacted her work and relationships. She denies suicidal thoughts or homicidal thoughts. She slept 6 hours the night before. She ate 25% of breakfast this AM. |
| Recommendation | Plan of care: | <ul style="list-style-type: none"> • Establish trust and rapport with patient • Explore perceptions of obsessive-compulsive behaviors • Reinforce relaxation techniques |
| | Tests/results pending: | None |
| | Orders pending completion: | None |
| | Other: | I observed Marcie removing the sheets from her bed. She seemed distressed. Can you go check on her? |
