My results showed that I am already a very good student. However, there are things I think I could improve on, like my study habits. I have a problem with procrastinating and putting things off till the last minute. I need to hold myself accountable and take the initiative to sit down and study. I am a very visual learner, and I grasp topics better when someone is showing me exactly how to do it. I can also learn from hearing certain things being said to me over and over. With my character, I would like to become more confident in myself. I always second guess myself and convince myself that I'm going to fail. Overall, I think I am a good student, but have things I need to work on.
