POST-CLINICAL REFLECTION OB Simulation Reflection - due on Thursday by 2359

To strengthen your clinical judgment skills, reflect on your knowledge and the decisions made caring for this patient by answering the reflection questions below.

Reflection Question	Nurse Reflection
<p>What feelings did you experience in clinical?</p> <p>Why?</p>	<p>Confidence, confusion, humble. I felt as if I knew what I was doing, then when I wasn't sure, we worked through everything and came up with a solution.</p>
<p>What did you already know and do well as you provided patient care?</p>	<p>Safety precautions for mom and baby. Checked baby's blood sugar.</p>
<p>What areas do you need to develop/improve?</p>	<p>Seeing signs of distress sooner and having a quicker train of thought.</p>
<p>What did you learn today?</p>	<p>Signs of a septic baby and how to couplet care. It is not easy.</p>
<p>How will you apply what was learned to improve patient care?</p>	<p>Ask when I am not sure. Ask for a second set of hands when needed. Teamwork.</p>
<p>Please reflect on how your OB simulation learning experience assisted in meeting 2-3 of the Student Learning Outcomes.</p>	<p>1.Safety and Quality. In one scenario the dad was being verbally abusive towards the laboring mother. We provided safety by asking security to intervene.</p> <p>2.Professionalism. In one scenario, the sister was obnoxious and the staff handled her very respectful and professionally</p> <p>3.</p>
