

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Westfall

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? I got to observe multiple yearly exams, 1 pap smear and assist with IUD placement.

2. What was the best/most interesting part of the experience?

I got to assist Angela with an IUD placement. Alongside that it was interesting to be able to see the cervix.

For cervical cancer screenings, there is an app that will give them a criteria on when they should be seen again.

3. Is a community nursing position something that you would consider working in? Why or why not?

I'm unsure. Maybe if a cool opportunity fell into lap but at this point probably not. I don't like the hours and the nurses job is a different type of "patient care" almost like a receptionist/assistant.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, because it offers services with a caring mindset, the environment is welcoming and they help people feel supported and understood. Westfall is also very knowledgeable, so that helps patients trust her.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

IUD: Was taught what to expect during placement and after care.

The nurse spends alot of time messaging patients back on EPC so numerous patient teaching points there.

- Exp. - throngs + hemorrhoids
- metformin and insulin resistance
- pap smear results
- menopause management

6. Provide examples of care describing one or more of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment: Pt was diagnosed with adenocarcinoma (estrogen driven cancer), Dr was unsure if her estrogen prescription could be continued, did research and was not comfortable making the decision so recommended contacting oncologist for further eval.

Patient Centered Care:

Professionalism:

Communication & Collaboration:

Nurse contacting multiple patients throughout the day answering multiple patients questions.

Also contacting Dr Blum for questions/other offices for appointments

OB Community Verification Sheet
