Communication & collaboration-

There was a problem with one of the samples we sent to the lab. We had to communicate with them to make sure our patient got accurate results

Clinical Judgement - we used clinical judgement today by deciding what size speculum to use on our patient

Student Name

Sierra Kellar

Date: 9/2

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site:

Westfall

ILIA

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I observed several annuals that included breast exams + pap smears

2. What was the best/most interesting part of the experience?

The most interesting was a pap ^{HSPD} smear on an older woman with a torn cervix

3. Is a community nursing position something that you would consider working in? Why or why not?

Possibly. It was a great environment with great results for the patients

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, we had several patients come in for followups that had effective results

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

I witnessed a safe sex teaching to promote health + prevent STI's for a patient with multiple partn
