Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED? Asthma, Strep, Rash, Kidney bleed
2. The majority of the patients who came into the PED were from which age group? Was this what you expected? most Pt were 6-15 it was what I expected
3. Was your overall experience different than what you expected? Please give examples. It was a lot slower than I expected
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)? not a ton of busy work older children were easier with procedures
5. What types of procedures did you observe or assist with? Strep culture, NC, nebulizer
6. What community acquired diseases are trending currently? Strep throat & viral
7. What community mental health trends are being seen in the pediatric population? Suicide and depression
8. How does the staff debrief after a traumatic event? Why is debriefing important?
9. What is the process for triaging patients in the PED? check in, vitals, room
10. What role does the Child Life Specialist play in the PED? Keeping the children calm and playing with them as a form of support and distraction from procedures and examination

8.) Kite flight had come in  
 2 ~~nurses~~ nurses plus triage nurse  
 Vitals reassessment but they did it  
 as a unit. there was no debrief

Trauma Pt 13yo M

scooter fall Left side	
- head	Assessed @ 9am and brought back
- arm	
- leg	
- right foot	
- flank / abdomen
