

Avery Fira

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment: One patient did not want to start estrogen because she was afraid of breast cancer but once Angela explained progesterone she switched her birth control → hormones!

Professionalism:

Communication & Collaboration:

Student Name Aweeney Fira

Date: 9/9/25

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Westfall

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I observed testing for BV they didn't have much patients.

2. What was the best/most interesting part of the experience?

I learned that if you put someone on estrogen they HAVE to be on progesterone as well.

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes! I really enjoyed the schedule and how nice everyone is.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, every patient we saw (mostly talking) seemed very satisfied and comfortable once they left.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes I did experience patient teaching most were about estrogen due to menopause and was very adequate.
