

6. Provide examples of care describing one or more of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care ✓	Professionalism ✓	Communication & Collaboration ✓
Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.	Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.	Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.	Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.	Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

**Safety & Quality:**

**Clinical Judgment:**

**Patient Centered Care:**

**Professionalism:** Westfall was so knowledgeable in the education she provided to each woman. She also showed respect by asking each woman if she could touch them. Very professional in the way she approached personal questions that pt's asked.

**Communication & Collaboration:** Westfall reached out to Dr. Loveless to make sure it would be safe to put a pt on Estrogen cream. Also the nurse had to work in the lab on certain test that needed to be drawn.
