

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality: Making sure the order that we got with Oxytocin is safe. Doctor ordered Oxytocin to 10 and that would not be going up 1-2 that is a safe range to titrate. Need to question the order over what is safe.

Clinical Judgment: When the husband of the patient was demanding that she not get any pain medication. It was best we call security or someone that could help have him removed from the room. It was deemed there is more going on and patient was not able to advocate for her self.

Patient Centered Care:

Professionalism:

Communication & Collaboration:
