

Question # 25	Student Name: <i>Mary Nanz</i>
Based on the "Topic" and "Subtopic," I missed a question about: <i>Communication</i>	
<input checked="" type="checkbox"/>	I have reviewed each of the excerpts/activities listed under the Packet > Remediation Content
<p>List five or more bullet points with your "take-aways" from this packet. (What is most important for you to remember as you prepare for the NCLEX and future patient care?)</p> <ul style="list-style-type: none"> • pt centered interviews are based on / organized in trust and effective long term therapeutic relationships • before talking to the pt, get a good previous hx from chart to best take care of the pt • ask open ended questions to allow pts to clearly express their concerns & problems • during conversations, the nurse is responsible for directing the flow of the conversation so pts have the opportunity to freely contribute • observation is powerful - there are a lot of cues you can pick up on just by observation 	

Question # 31	
Based on the "Topic" and "Subtopic," I missed a question about: <i>collaboration/communicative care</i>	
<input checked="" type="checkbox"/>	I have reviewed each of the excerpts/activities listed under the Packet > Remediation Content
<p>List five or more bullet points with your "take-aways" from this packet. (What is most important for you to remember as you prepare for the NCLEX and future patient care?)</p> <ul style="list-style-type: none"> • share information clearly, give accurate, timely updates to the team • actively listen, respect input from pts, families & team members • work as a team, value everyone's roll in pt care • advocate for the pt, speak up if something doesn't seem right • maintain professionalism, keep communication respectful, clear, & focused on the pt
