

Why I do I want to be a nurse? Well, the answer to that question is quite simple. I want to have the opportunity to help people when they have an emergency. I haven't always wanted to be a nurse, but I have for the longest time had my sights set on the medical field. This feeling of wanting to help people stems from my father who was sick most of his life and didn't receive the adequate help, so I decided to become someone that could save lives.
