## NICU Disease Process

D.O.B.	_____	APGAR at
	birth _____	
Gestational Age _____		Adjusted Gestational Age _____
Birthweight _____ lbs. _____ oz. / _____ grams		

Disease Name:

What is happening in the body?

What am I going to see during my assessment?

What tests and labs would I expect to see? What are those results?

What medications and nursing interventions or treatments will you anticipate?

Please write up any medications given or any medications that your patient is on using a separate medication sheet.

How will you know that your patient is improving?

What are the primary risk factors for this diagnosis?

What are the long-term complications?
