ECG Practice

Identify this rhythm SVT

Calculate heart rate 200

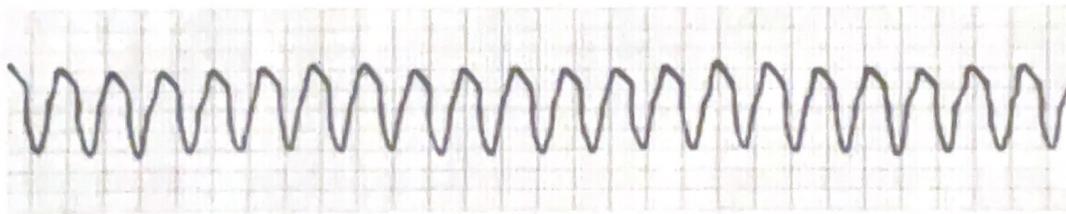

What nursing actions will you take vagal stimulation
adenosine (w/dr order)
cardiovert

Identify this rhythm Vtach

Calculate heart rate 200

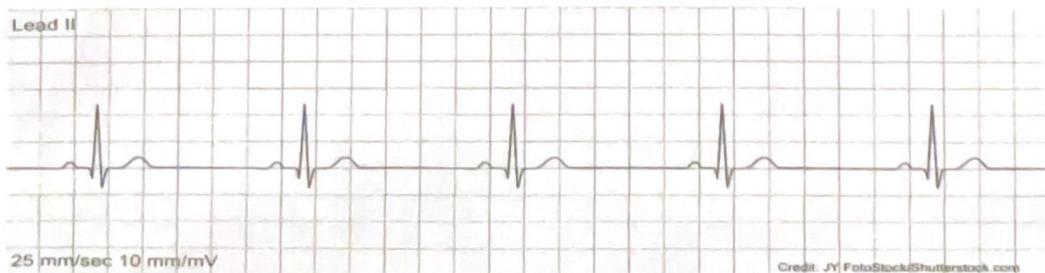

What nursing actions will you take CPR and defibrillate (no pulse)
w/ pulse → anti-dysrhythmias or CPR

Identify this rhythm Sinus Bradycardia

Calculate heart rate 50 — ask what meds they take.

What nursing actions will you take ask pt if they are an athlete/runner/workout
assess if they're symptomatic → atropine

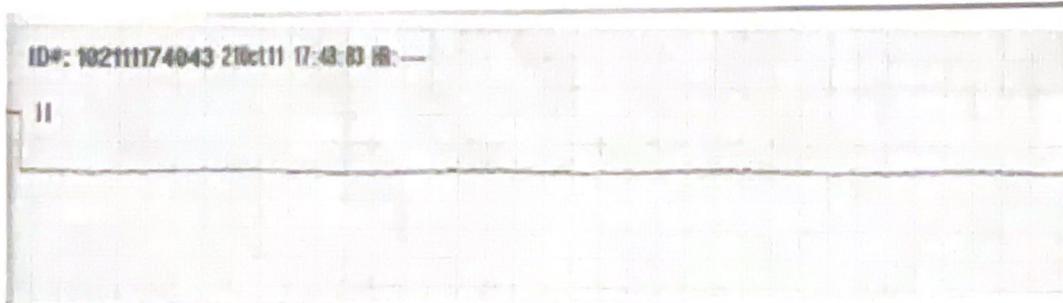

ECG Practice

Identify this rhythm Asystole

Calculate the heart rate pulseless

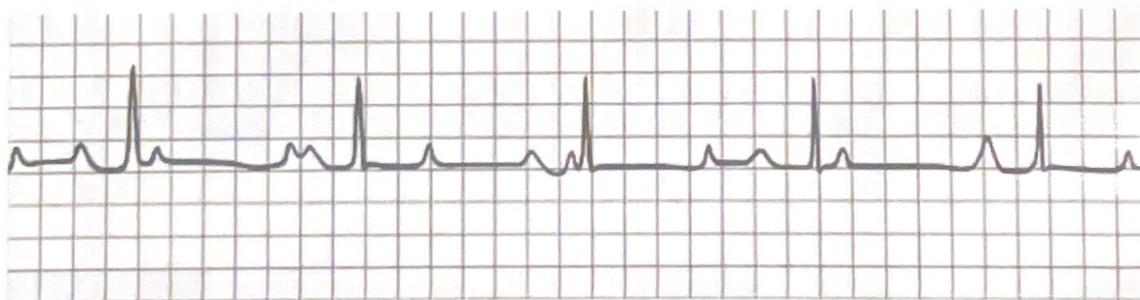

What nursing actions will you take CPR - do not shock

Identify this rhythm Third degree block

Calculate the heart rate 50?

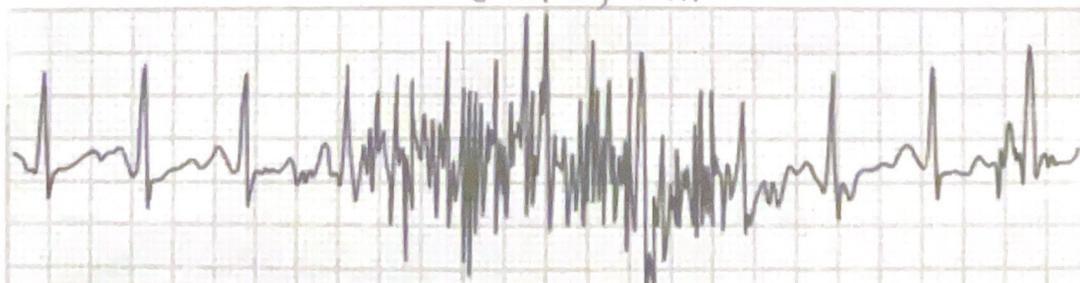

What nursing actions will you take will need a pacemaker

Identify this rhythm Artifact

Calculate the heart rate Artifact

What nursing actions will you take check leads, check for electronic accessories, Educate patient on staying still.

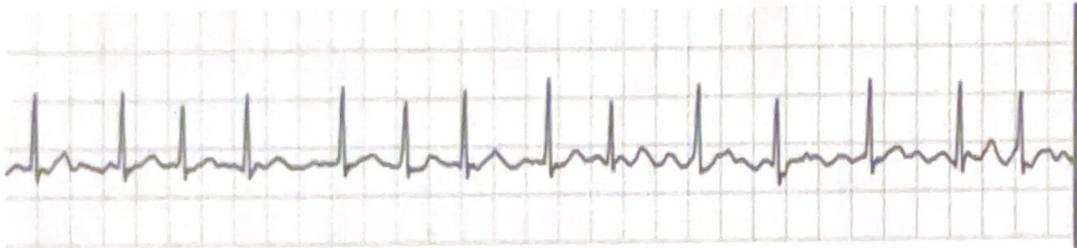

ECG Practice

Identify this rhythm Afib

Calculate heart rate 140

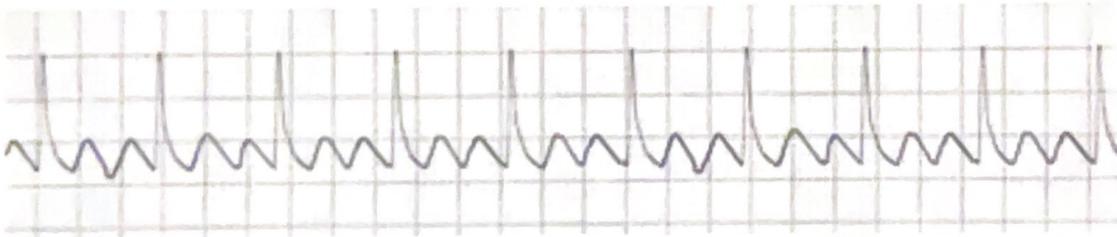

What nursing actions will you take cardiovert (1st 24h)
>48h → anticoagulate

Identify this rhythm Atrial flutter

Calculate heart rate 100

What nursing actions will you take cardiovert if pharmacologic interventions
aren't effective

Identify this rhythm Vfib

Calculate heart rate _____

What nursing actions will you take CPR and shock
