

Alyssa Pagano

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: BLANN Community Clinic

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I got to observe routine ob appoints of all week ranges, Post-Partum appointments, etc. I assisted with getting manual blood pressure upon checking in our patients & I got to perform KOPs to use the doppler & detect baby's heart rates.

2. What was the best/most interesting part of the experience?

getting to perform the doppler ultrasound and successfully find the fetal heart beat on my patients. I definitely understand fetal positioning better.

3. Is a community nursing position something that you would consider working in? Why or why not?

I did enjoy it, I think I would prefer a more in-depth, hospitalized patient-care center job.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

I do! everyone was super friendly & nice & was willing to include me in their world!

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

I did, mainly on birth control, I was assigned to work with the medical assistant so she did not have much info/authority to say but it was adequate.

Communication & Collaboration:

The medical Assistant I was working with was able to communicate without Spanish-speaking patient and help Dr. Blann relay the important instruction need prior to her induction date.
